

Welcome to the GM Canada Mobility Program for Persons with Disabilities

We've created this simple overview of our Mobility Program to help you find the vehicle and adaptive equipment you need. Also be sure to speak to your GM Canada dealer about a reimbursement of up to \$1,000 towards the cost of adapting an eligible Chevrolet, Buick, GMC, or Cadillac.*

Step 1 Obtain an evaluation

First find a driver assessment facility and arrange for a complete evaluation. Your assessment professional will be able to make suggestions about your driving and any adaptive equipment you need. You should also speak to your provincial Ministry of Transportation about any changes in your medical status.

Step 2 Eligible equipment

To be eligible for a GM reimbursement of up to \$1,000, your adaptive equipment must be permanently installed in a vehicle, installed for a driver or passenger with a permanent disability and purchased from and installed by a licensed equipment installer. Equipment available from General Motors (i.e., regular production options and GM Accessories) is not eligible for reimbursement. Speak to a GM Mobility Program representative to find out more.

Step 3 Choose a vehicle

Together your GM Canada dealership, an adaptive equipment installer and an assessment professional can help you choose the right vehicle for your needs.

Step 4 Find a qualified equipment installer

If you're not sure where to find qualified installers in your area, the National Mobility Equipment Dealers Association {NMEDA}, your provincial rehabilitation services agency and the Ministry of Transportation are good sources of information.

Visit NMEDA.org to find a dealer nearest you or contact them at 1-800-833-0427.

Step 5 Get to know your financing options

GM Canada has a number of financing options available including Leasing Financing.

Visit gm.ca/gm/English/services/financial/overview to find out more. Or speak with your local GM dealership.

(TTY users, 1-800-263-3830)

*Up to \$1,000 Mobility Program rebate available towards the purchase, finance or lease (on approved credit) of one eligible new Chevrolet, Buick, GMC or Cadillac vehicle with mobility equipment/adaptations delivered between 3 January 2026 – 4 January 2027. Only certain equipment and adaptations are eligible for Mobility Program or the maximum value of the rebate. Proof of eligibility must be provided upon request. Offer: 1) will be deducted from the negotiated purchase price before taxes; 2) cannot be applied to past transactions; 3) has no other cash value. Down payment and/or security deposit may be required. Dealers may sell for less. Factory order or Dealer trade may be required but may not always be available. Offers cannot be combined with certain other offers and may be modified or terminated by General Motors at any time without notice. Conditions apply. See www.gm.ca/en/home/brands.html or Dealer for details.

**GM Mobility will not reimburse for relocation of, or modification to, original equipment seats or seat tracks.

[†]Only if vehicle is not available with vinyl/leather.
